I taught my final course in Fall 2019. You can view a video of my last lecture, which was not about computer science.

Khan Academy now carries algorithms tutorials for which Devin Balkcom and I produced content.

Are you looking for solutions to exercises and problems in *Introduction to Algorithms*?

If you are, then see the frequently asked question and answer below.

If you request solutions from me, I will not respond.

From July 2004 through June 2008, I was the director of the Dartmouth Institute for Writing and Rhetoric.

I occasionally taught a graduate Computer Science course on how to write papers and how to give talks. I publish a list of usage rules that I required my students to observe.

In 2015, PRI's "The World" ran a story on mentoring women in computer science in which a couple of my students and I were interviewed.

I was interviewed for the *Command Line Heroes* podcast "Learning the BASICs."
You can also hear me spout off in "Philosophical Trials #7."
I talked about writing *Introduction to Algorithms* in an episode of "Frank Stajano Explains."
And an interview with a Brazilian vlogger.
