

Lab 08: Data Mining

			1	2	3	4	5	6	7	8	9	10	11	12
Criteria	Description	Points												
Dataset Selection and Description	Clear identification of the dataset's name and source and a brief description of the dataset's characteristics and purpose.	10												
Methodology	Description of the packages used and a detailed explanation of the specific steps taken to build the decision tree model.	15												
Analysis	Inclusion and discussion of the code used for the analysis.	20												
Model Results and Interpretation	Graphical representation of the final decision tree. Description of the characteristics of your model (e.g., nodes, splits, key features). Interpretation of the decision tree's structure and what the model predicts or reveals about the data.	25												
Submission Guidelines & Deadline	Both PDF and SQL packaged into single ZIP file, submitted on time	5												
Report structure and clarity	Submit a well-structured and clear report in PDF format, ensuring readability and proper formatting.	5												
Lab Defense	Oral presentation or defense of the lab work, demonstrating understanding of concepts and decisions.	20												
Total:		100
